

1975 Dura-Tape Pro 110

Premium masking tape 110°C

Top-quality professional masking tape for demanding automotive refinishing applications. It delivers reliable adhesion, clean removal and excellent resistance to heat, moisture, and solvents.

- suitable for solvent and water-based paints
- flexible and adaptable to irregular surfaces
- leaves no residues due to natural rubber adhesive
- provides a strong adhesion (high initial tack and secure adhesion)
- easy removal without tearing
- resistant up to 110°C for 30 minutes and 90°C for 90 minutes

1975 Dura-Tape Pro 110

Premium masking tape 110°C

Description:

It features strong natural rubber adhesive designed to withstand temperatures up to 110°C. It offers excellent resistance to moisture and solvents, making it ideal for demanding automotive refinishing applications.

It ensures easy application on complex curves and contours, while delivering consistently high adhesion to masking paper, film, and even tape-on-tape applications, ensuring secure masking throughout the job.

After use, it removes cleanly and effortlessly without leaving residue or tearing, enabling a smooth, efficient workflow and a professional finish every time.

Technical information:

Colour	Orange
Total thickness	140 µm
Adhesion	>2.6 N/cm
Breaking load	>33 N/cm
Backing weight	60 g/m ²
Temperature resistance	110°C (30 min) 80°C (90 min)

Dimensions & Packaging:

Width	Length	Packaging
48 mm	50 m	Box, 24 pcs
36 mm	50 m	Box, 24 pcs
24 mm	50 m	Box, 36 pcs
18 mm	50 m	Box, 48 pcs
