

### Description

Water based paste for preparing surface before painting. Cleaning, matting and degreasing in one step. Does not leave deep scratches. This compound is water soluble and can be diluted simply with water. Is wax and silicone free.

### Features & Benefits

- mechanically and chemically removes waxes and silicones
- possible to use with water
- manual or machine application possible
- removal of paint mist and difficult stains

### Technical Properties

- plastic bottle 1 kg
- packing 12 pcs / box
- color: green

### Application

It makes surface to be repainted opaque (without deep scratching) and serves in a preparation procedure before repainting. It is suitable for all surfaces to be repainted, whether metal parts, new paint or paint that has been damaged by atmospheric agents (dried, opaque paint). May be applied by hand with a scuffing pad as well as by machine (300-600 rpm). The procedure can be wet or dry. Once finished it can be washed away completely with water.

Product Nr.	Description	Content	Packing
3020-1	green	1 kg	12
