

PERFIN[®]

PERFECT FINISH BY SILCO

3060-150 Abra-Sil Gold

Top performance abrasive disc, 150mm

Abrasive discs Abra-Sil Gold present the most you can expect from abrasive material. They offer exceptional durability due to special abrasive minerals which feature outstanding strength in combination with a flexible backing. Abrasive discs Abra-Sil Gold ensure low labour and material costs as well as providing excellent sanding results.

- ▶ excellent cutting performance
- ▶ even and smooth finished surface
- ▶ diameter: 150 mm, 15 holes

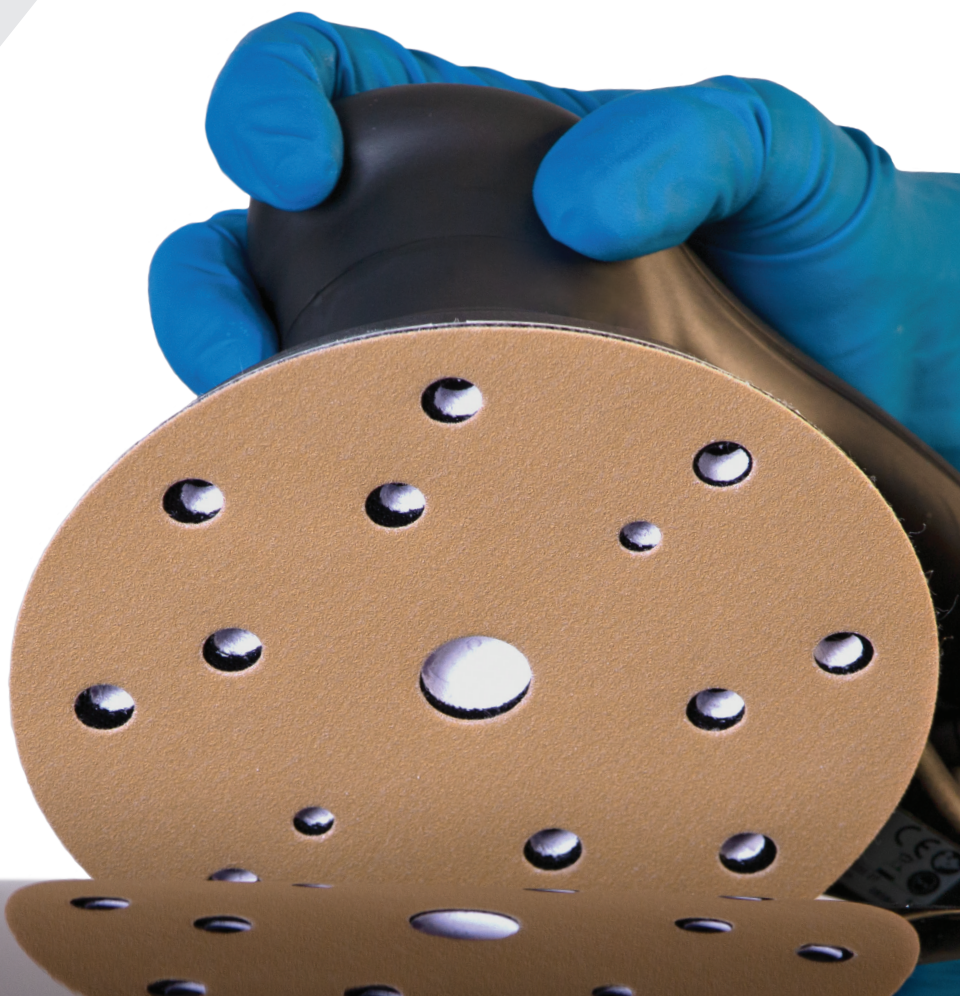

Special stearate coat prevents clogging

Abrasive minerals: premium AlO

Even and smooth finished surface

3060-150 Abra-Sil Gold

Top performance abrasive disc, 150mm

CENTRE HOLE FOR BETTER DUST EXTRACTION

Better dust extraction due to the centre hole. Better dust removal also results in more sanding efficiency and a longer disc life.

LONGER LIFETIME

The disc is treated with a special anti-clogging stearate coating that helps keep it from loading up during sanding. It evacuates the heat which results in a cooler surface and longer lifetime.

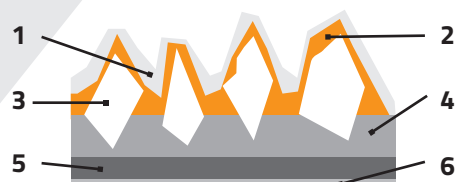

LATEX TREATED BACKING

Produced on class C paper (120 g / m²), additionally treated with latex, which results in best ratio between flexibility and aggressiveness during sanding.

QUALITY TESTED

Works perfectly with worlds latest car refinishing materials.

Structure

1 SPECIAL STEARATE COAT (TOP COAT)
Prevents clogging

2 PHENOLIC RESIN (SIZE COAT)
Additionally strengthens the grains and prevents them from rolling

3 PREMIUM ALUMINUM OXIDE
Outstanding strength and longer lifetime

4 BASIC COAT (MAKE COAT)
Attaches the grains

5 LATEX TREATED C WEIGHT PAPER
Flexibility and durability

6 VELCRO FASTENING
Easy to use
