Cup capacity	600 ml	600 ml	600 ml

### 5410 Primer Spray Gun

Made in LVMP technology, the low volume medium pressure atomization technology offers a unified atomizing effect, enabling fast and improved spraying. An efficient air cap and precision nozzle improve transfer efficiency and save paint, significantly reducing material loss in overspray during work time. The body is made from the best quality metal, which offers exceptional work comfort and productivity. Matt chrome plating surface is solvent resistant and easy to clean.

### 5420 Base Coat Spray Gun 5430 Clear Coat Spray Gun

Aesthetic and ergonomic design with premium performance. The gun body is made of high-strength alloy materials and high-quality stainless-steel nozzle and needle greatly improve the lifetime of the product. The materials of the internal seal parts are resistant to corrosion, offering long service intervals whilst assuring low maintenance costs. The gun weighs only 460 g and due to easy and comfortable operation, it fits perfectly into the palm of the painter and reduces fatigue on continued work. Knobs are smooth and easy to adjust, while TEFLON's non-stick surface is easy to clean and maintain. Fine and consistent atomization and 360-degree rotation ensure an exceptional and professional finish every time. Applicable to the automotive refinishing coatings for mid-to-high-end paintwork. Tools and accessories for disassembling, cleaning, and maintenance are included.
