<u>General notes</u>

When in doubt or if feeling unwell seek medical assistance. Show the safety data sheet and label to the physician. Never give anything by mouth to an unconscious person. Place patient in recovery position and ensure airway patency. In case of unconsciousness bring patient into stable side position for transport and take care of breathing.

Following inhalation

Remove patient to fresh air - move out of dangerous area. Victim should rest in a warm place. If breathing is irregular or respiratory arrest occurs provide artificial respiration. In case of unconsciousness bring patient into stable side position and seek medical attention. Do not give anything to eat or drink to patient.

Following skin contact

Take off all contaminated clothing. Wash affected skin areas thoroughly with plenty of water and soap. If irritation of skin persists seek medical attention.

Following eye contact

After 5 minutes of rinsing, remove contact lenses, if present, and continue rinsing. Immediately rinse eyes with running water, also under the eyelids. If irritation does not stop, seek professional medical treatment!

Following ingestion

Do not induce vomiting! Consult a physician. Show the physician the safety data sheet or label.
