DRY TO POLISH

10 min	25 min	2.5 hrs
60°C	40°C	20°C

The new fast-drying UHS clearcoat combines rapid curing with outstanding finish quality, making it the ideal choice for efficient and reliable automotive refinishing.

With a fast curing it helps to reduce process time while maintaining outstanding appearance and performance.

Designed for maximum flexibility, it delivers excellent results across a wide range of repair applications. Whether used for small spot repairs or complete refinishing, the clearcoat provides smooth application, exceptional gloss and impressive DOI (Distinctness of Image) for a deep, premium-looking finish.
