9940 Vacuum Cleaner

Professional Wet & Dry Vacuum Cleaner, 40 L

Description:

The professional 9940 industrial vacuum cleaner and dust extraction system is specifically designed for use with sanding machines and for general workplace cleaning. Its high suction power, automatic filter cleaning and the ability to operate synchronously with electric or pneumatic tools ensure maximum productivity. Suitable for both wet and dry vacuuming, it complies with Dust Class M requirements. The large 40-litre container makes it an excellent choice for professional body shops and industrial workshops.

Features:

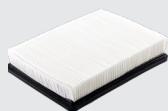

- / Powerful motor rated up to 1,600 W
- / Airflow up to 126 m³/h and vacuum pressure up to 21 kPa
- / Large 40 L container for dust and liquids
- / Automatic HEPA filter cleaning
- / Wet and dry vacuuming in one machine
- / Integrated power socket with Auto-Start function
- / Remote control and power regulation
- / Dust Class M certified
