

6090 B9 MULTI-AZURE

High Performance Semi-Lightweight Putty

High performance semi-lightweight polyester putty can be used as filling or finishing putty. Intensive blue colour enables better surface assessment after sanding due to perfect colour contrast between sanded and unsanded surface. It is easy to apply and to sand with fine-grained sanding papers, beginning P180 or P240.

- better surface assessment after sanding due to perfect colour contrast
- excellent sanding, beginning with P180 grit
- no clogging of sanding paper after 20 minutes from application
- adhesion to various substrates (steel, galvanized steel, aluminium, polyester laminates, old paint ...)
- very easy to spread
- can be used as filling and fine putty
- non-porous, smooth surface
- specific weight 1,43 kg/L
