

# UniMix 60

Waterborne automotive paint system

English

***silco***<sup>®</sup>

The alpha choice.

# USER AND ENVIROMENTALLY FRIENDLY

Perfect paint for perfect finishes

Reduced paint consumption

Full opacity reachable with 40% less paint.

---

A compact system

Includes small cans avoiding overstock.

Large number of colour formulas

More than 100.000 formulas including old-timers, motorcycles and commercial vehicles.

---

Perfect colour matching

8.000+ colour chips sprayed with original paint.

# PERFECT FOR EVERY BODYSHOP

Less is more

High-quality automotive paint system compliant with all VOC regulations.

---

Mixing is required due to a significantly higher concentration of pigment for a consistent distribution.

---

Improved system with fewer toners consequently having a lower investment.

---

Smooth and silent operation

Minimal waiting time before applying topcoat.

---

Even application of silver tones with no tendency for clouding.

---

Quick drying time.

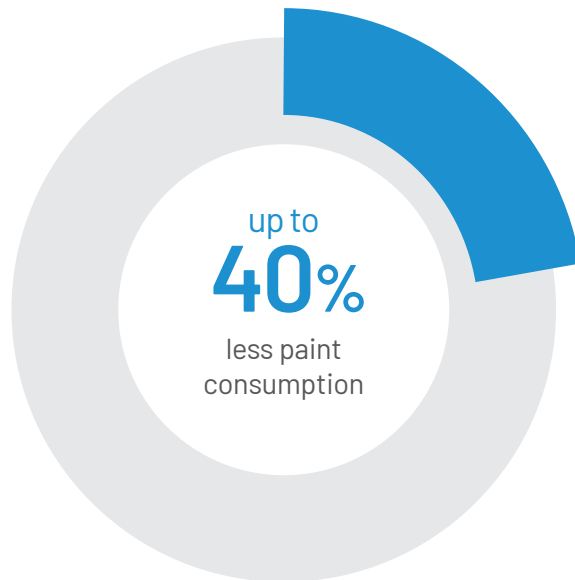

---

Stirring required due to significantly higher concentration of pigment to achieve a consistent distribution.

# BOOST YOUR BODYSHOP PERFORMANCE

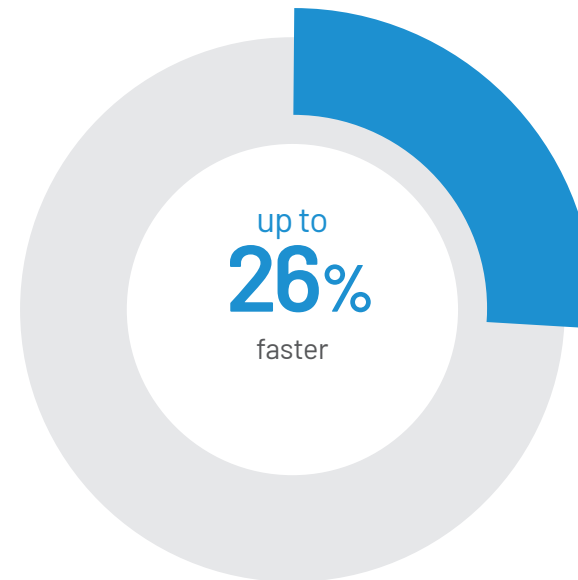

Less paint, faster repair, more profit

Optimal paint consumption

With superior opacity, UniMix 60 will save up to 40% of paint compared to the average paint system on the market.

Shorter painting process time

With faster drying and fewer coats needed, UniMix 60 will save up to 26% of average application time.

# UNIMIX 60 COLOUR TOOLS
